

# UTrakk Daily Management System (DMS)

Elevate performance and engagement with a powerful digital ally

# A Complete Solution for **Performance** and **Engagement**

UTrakk is a Daily Management System (DMS) that provides managers with powerful features to **drive** and continuously improve the **performance** of their operations and teams.

Our DMS is **on the floor** with you, facing the realities and challenges of industrial and manufacturing organizations, to **anticipate** and **solve** problems, engage and support teams.

“ By enhancing monitoring and communication, UTrakk helps save valuable time. We can now focus on active supervision and go into solution and continuous improvement mode. ”

— **Maxime Perron-Hébert,**  
Production Coordinator, PH Tech

# UTrakk Works with You to Solve Your Challenges... ..

- The chaos of emergencies and recurring problems.
- Lack of visibility and alignment on the floor.
- Inefficient processes and meetings.
- Disconnect and communication silos between shifts.
- Disengaged teams and undefined objectives.

## ... and Help You Reap the Benefits.

- Quick decisions based on accurate shop floor data.
- Problems solved for good.
- Engaged, empowered, and aligned teams.
- Digitalized and structured management rituals.
- SQCDPE objectives met or exceeded.

**3X**

more time spent on the floor for managers

**10% to 15%**

performance increase

**75%**

less paper use

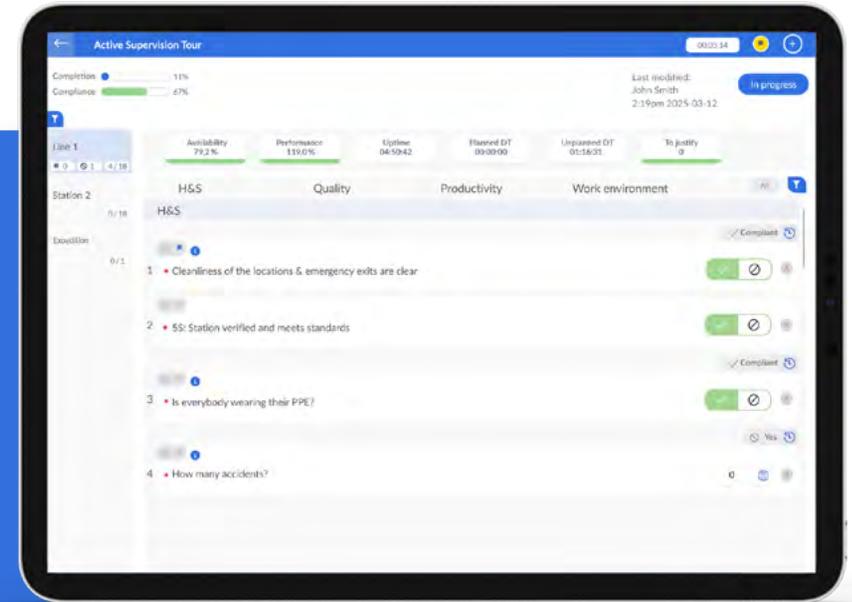

# Support **Operations** and **Teams** on the Floor

Perform regular tours and support your teams on the floor to ensure work progresses and targets are met.

## Key Features

UTrakk ritualizes and structures your floor tours and Gemba Walks, promoting proactive daily management that highlights work progress, alignment with key performance indicators, and obstacles to achieving operational goals.

- Manage operations in real time through regular, structured floor tours and Gemba Walks.
- Quickly identify gaps and issues with checklists that provide real-time status updates on lines, machines, products, and more.
- Efficiently assign, track, and resolve problems with clear actions, designated owners, and defined deadlines.
- Stay in control of your shop floor data with integrated dashboards for your digitalized floor tours and Gemba Walks.

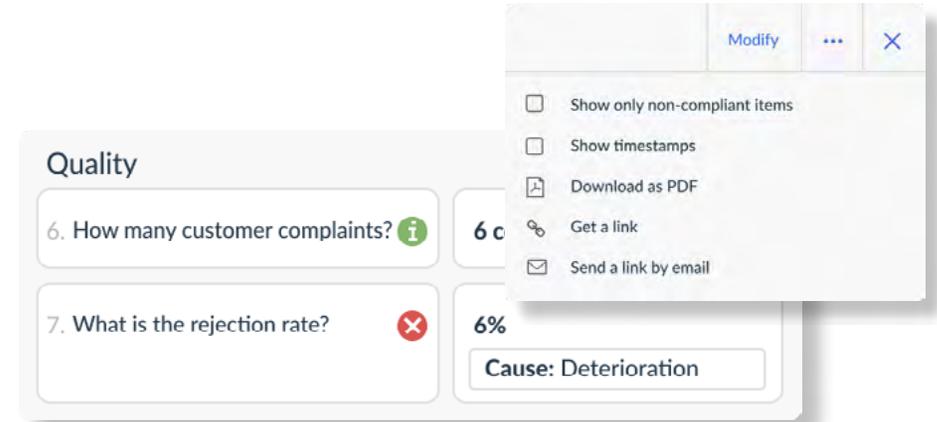

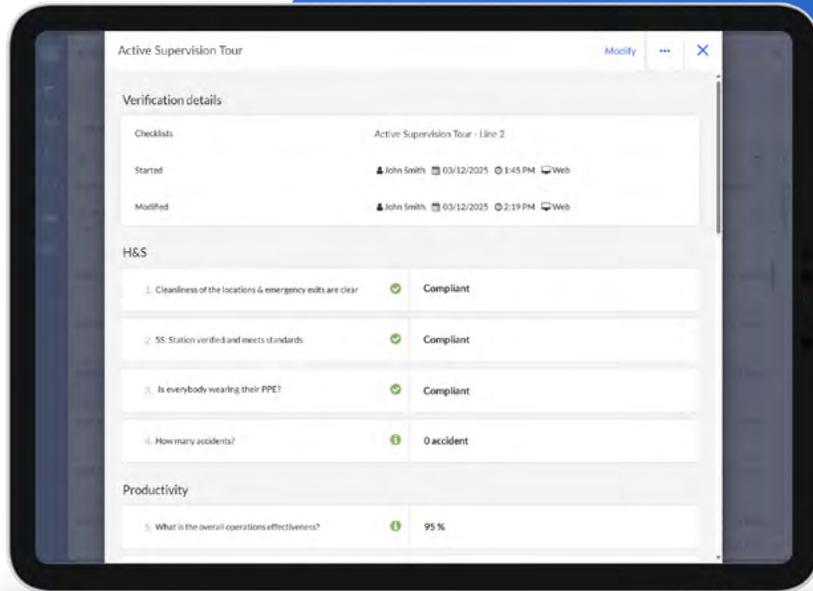

See how LDC Løeuf made productivity gains in key services:

- **+10%** increase for Production
- **+25%** increase for Washing
- **+25%** increase for Logistics

# Reduce Gaps to Improve Compliance

Standardize audits and checklists to monitor critical control points and prioritize actions with consistency.

## Key Features

UTrakk offers standardized and customizable audits and checklists to monitor control points, identify gaps, and prioritize corrective actions using questions aligned with SQCDPE objectives.

- Standardize audits and floor tours with consistent, structured questions.
- Quickly identify gaps using compliance questions aligned with SQCDPE goals.
- Capture and centralize shop floor data in real-time, during audits and rituals.
- Instantly share results with decision-makers via direct links or downloadable reports.

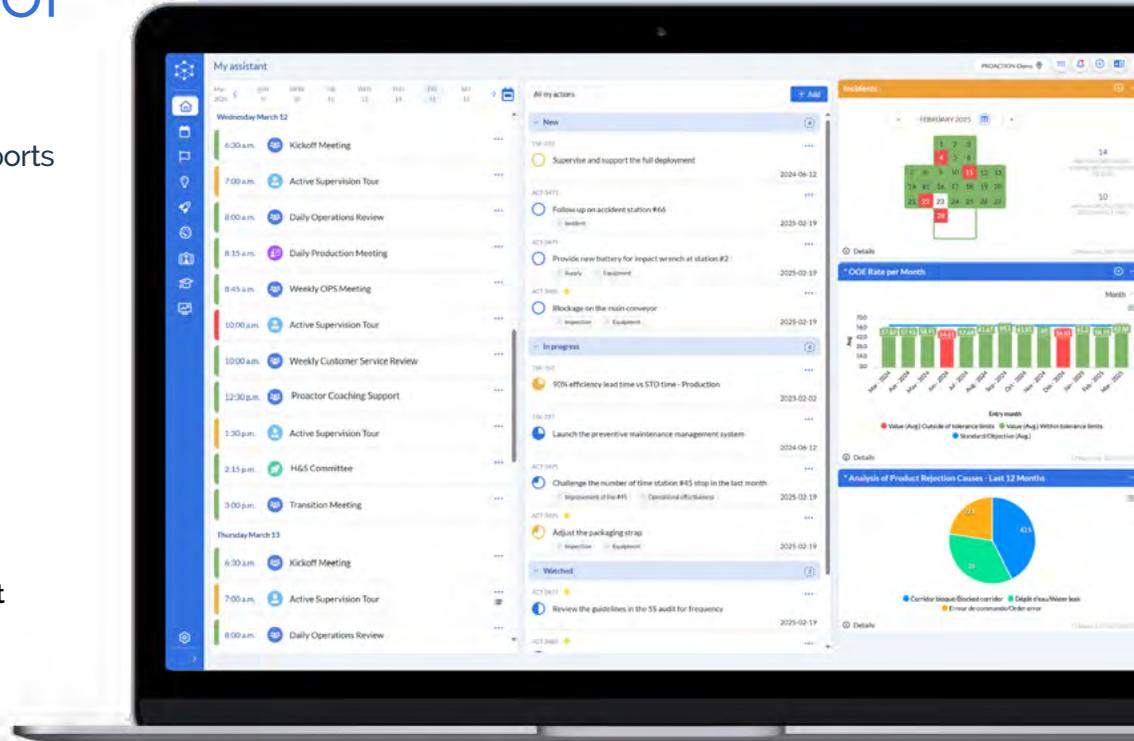

# Organize Your **Activities** for Increased **Efficiency**

Structure best management practices in a digital agenda that supports efficiency and better time management.

## Key Features

UTrakk's digital agenda provides a solid work structure by organizing managers' typical responsibilities and activities. This Leader Standard Work tool helps efficiently manage daily, weekly, and monthly tasks, routines, and meetings, promoting consistent management practices.

- Structure your responsibilities with scheduled tasks, meetings, and rituals in a digital agenda.
- Get a clear overview of your key activities for the week, at a glance with "List" mode.
- Stay focused on priorities with an action list that ensures close tracking of deadlines and statuses.
- Create actions in real time, directly from the list.

# Track **KPIs** to Boost Performance

Drive performance with personalized dashboards enabling you to track and analyze your KPIs and make decisions with confidence.

## Key Features

UTrakk makes it easy to create highly personalized dashboards, structured around your SQCDPE performance axes or key performance indicators (KPIs) for critical departments, processes, and teams.

- Integrate operational and managerial data manually or automatically.
- Visualize all your data clearly through customized diagrams.
- Easily identify trends and gaps using interactive filters and intuitive color coding.
- Take immediate action on critical KPIs by creating corrective actions directly from a dashboard.

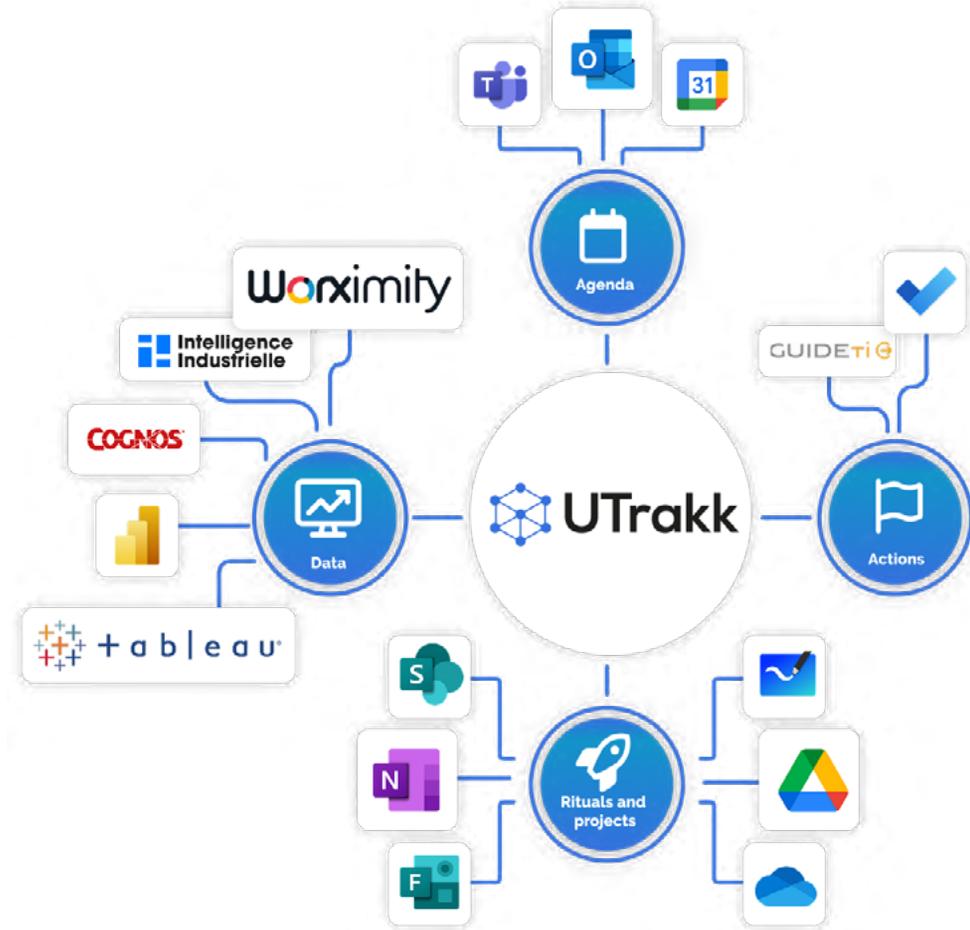

# Integrations

Simplify data exchange with **UTrakk** and optimize operational processes by seamlessly connecting your existing software (MES, OEE, CMMS, PIM, BI, and more) to our DMS. Our flexible APIs let you connect **UTrakk** to any software implemented in your organization.

Through a fully connected ecosystem, you gain real-time visibility into accurate data and enrich your system with critical information to make smarter, faster decisions.

Find out how Cuisine Solutions improved production performance with reliable, real-time data from **Worximity** and **UTrakk**.

# The Manager's Journey

## See how UTrakk Can Support You – Every Day

# Align **Teams** and Simplify **Collaboration**

Create seamless and efficient communication channels through structured meetings that foster problem-solving and collaboration.

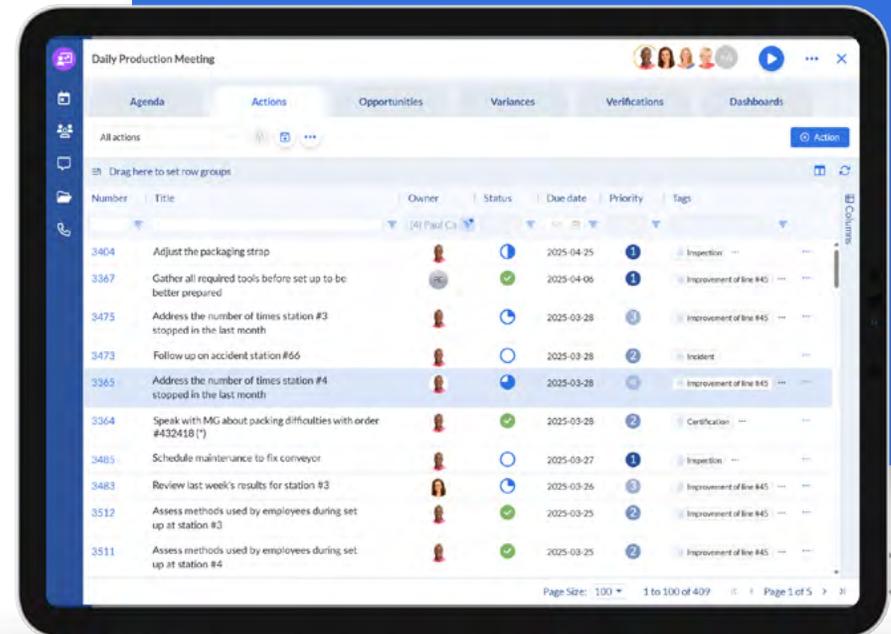

## Key Features

UTrakk's meeting management tool simplifies the planning of structured rituals to improve communication clarity. Each meeting centralizes essential information – participants, agenda, actions, and documents – strengthening team alignment and collaboration.

- Plan your meetings and management rituals, and sync them with your corporate calendars.
- Easily share documents, links, and resources in your digital meetings.
- Save time with predefined agendas accessible to all participants.
- Monitor actions efficiently with detailed and documented discussion threads.

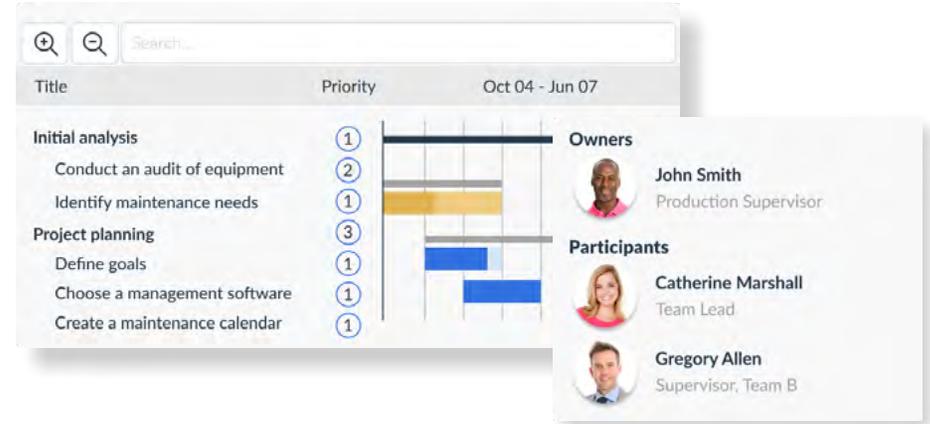

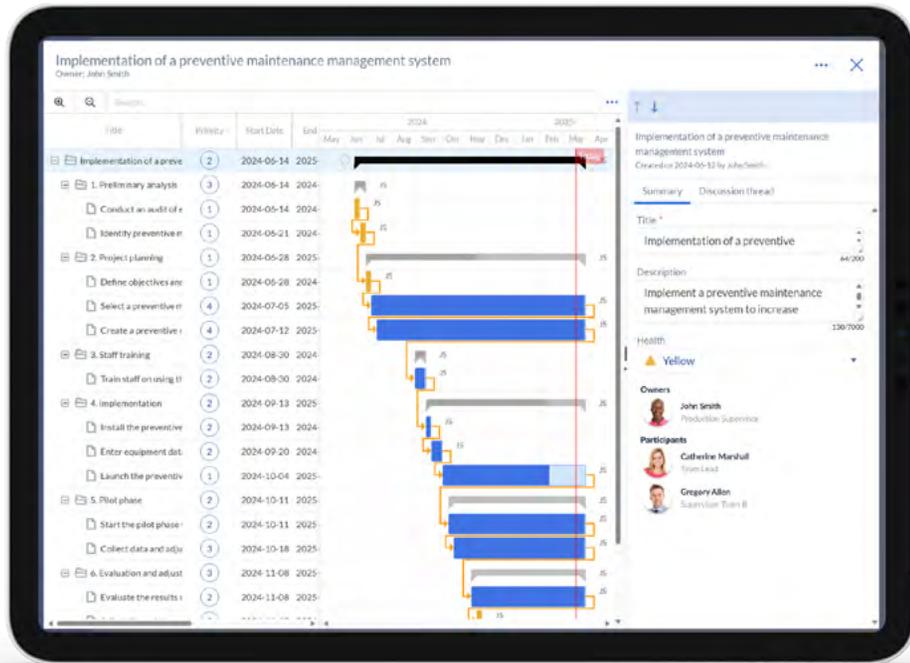

Learn more about Boulangerie St-Méthode's outstanding results:

- **+19%** productivity increase
- **+11%** quality improvement
- **-13%** material loss reduction

# Plan, Manage and Deliver Successful Projects

Plan tasks, assign responsibilities and deadlines, and monitor project status to meet your objectives.

## Key Features

UTrakk includes a Project Tracking module that simplifies and streamlines the management of project milestones and associated tasks – from start to finish – enabling you to rigorously monitor progress and achieve operational goals.

- Organize your projects efficiently using a folder-like structure or Gantt chart to manage milestones and tasks.
- Group and track your strategic projects with structured thematic portfolios.
- Quickly access key information such as task owners, deadlines, priorities, and statuses.
- Closely monitor project progress by linking projects to relevant meetings.

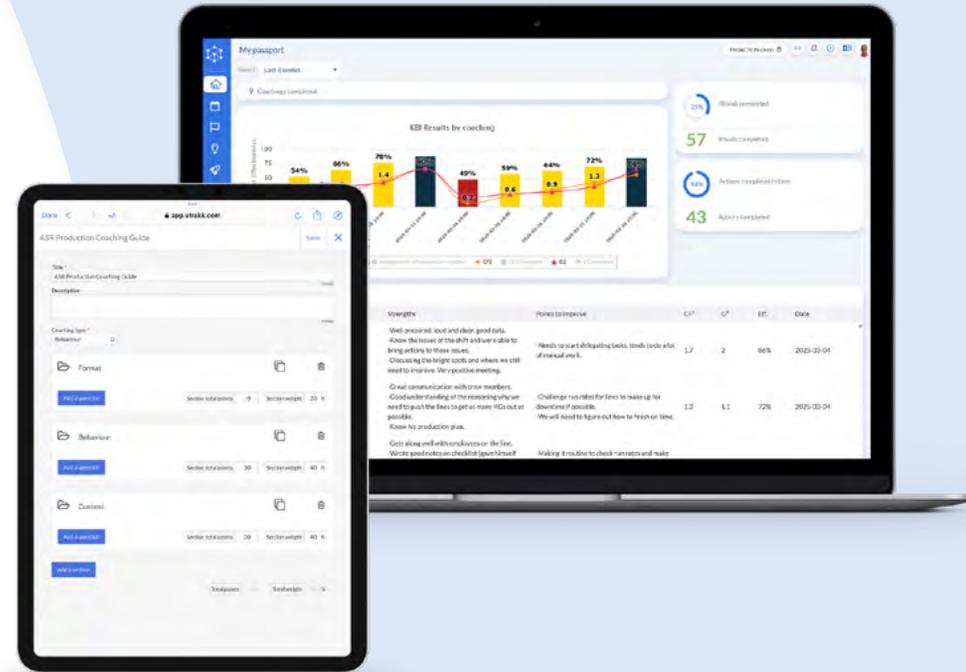

# Develop and Measure Your Leadership

Benefit from a personalized coaching plan and monitor your progress for ongoing management skills development.

## Key Features

UTrakk's Coaching module helps you develop your skills by giving you access to your progress data and the actions you need to take to adopt and sustain best management practices and drive the performance of operations and teams with confidence.

- Access a personalized coaching plan tailored to your needs, with specific rituals and deadlines.
- Maximize your development through targeted actions and structured follow-up.
- Identify your strengths and areas for improvement using a digital assessment guide.
- Track your progress with a dashboard displaying your key behavioral indicators (KBIs).

“ The results have exceeded our expectations – and so has the overall attitude. Feedback from our operators has been very positive, and our team leaders feel much more confident in their roles. ”

— Stéphane Jardiau,  
Director of Production and Logistics, SERF

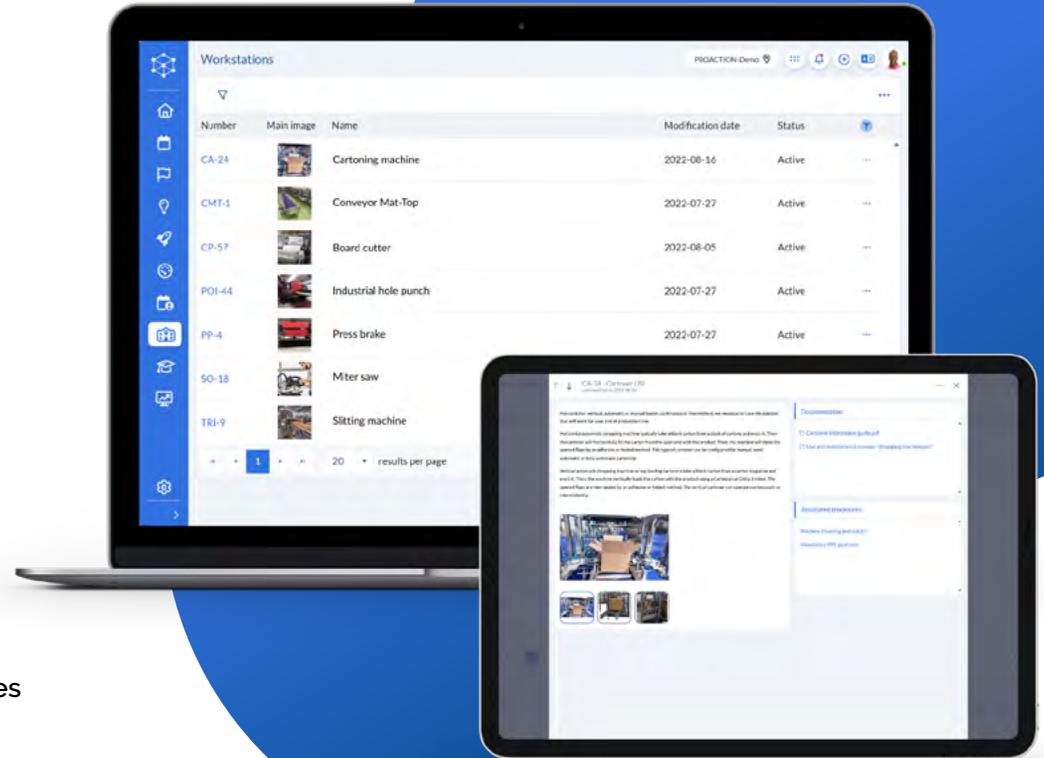

# Standardize, Digitalize and Share **Expertise**

Digitalize documentation, procedures, and processes for each workstation to safeguard and share best practices and expertise.

## Key Features

The UTrakk Knowledge Center is a digital library that centralizes procedures, processes, and other documentation specific to each workstation. By simplifying the storage and sharing of standardized practices, it helps teams stay compliant with established standards while enhancing their expertise.

- Create clear, step-by-step SOPs and work instructions.
- Clarify documentation by adding photos, videos, and files.
- Standardize best practices for efficient, compliant execution.
- Accelerate procedure updates with a user-friendly editing function.

# Unparalleled Services to Support Performance

Solution configuration and deployment

On-site or remote training

API development for integration of external software

Change management and adoption committee

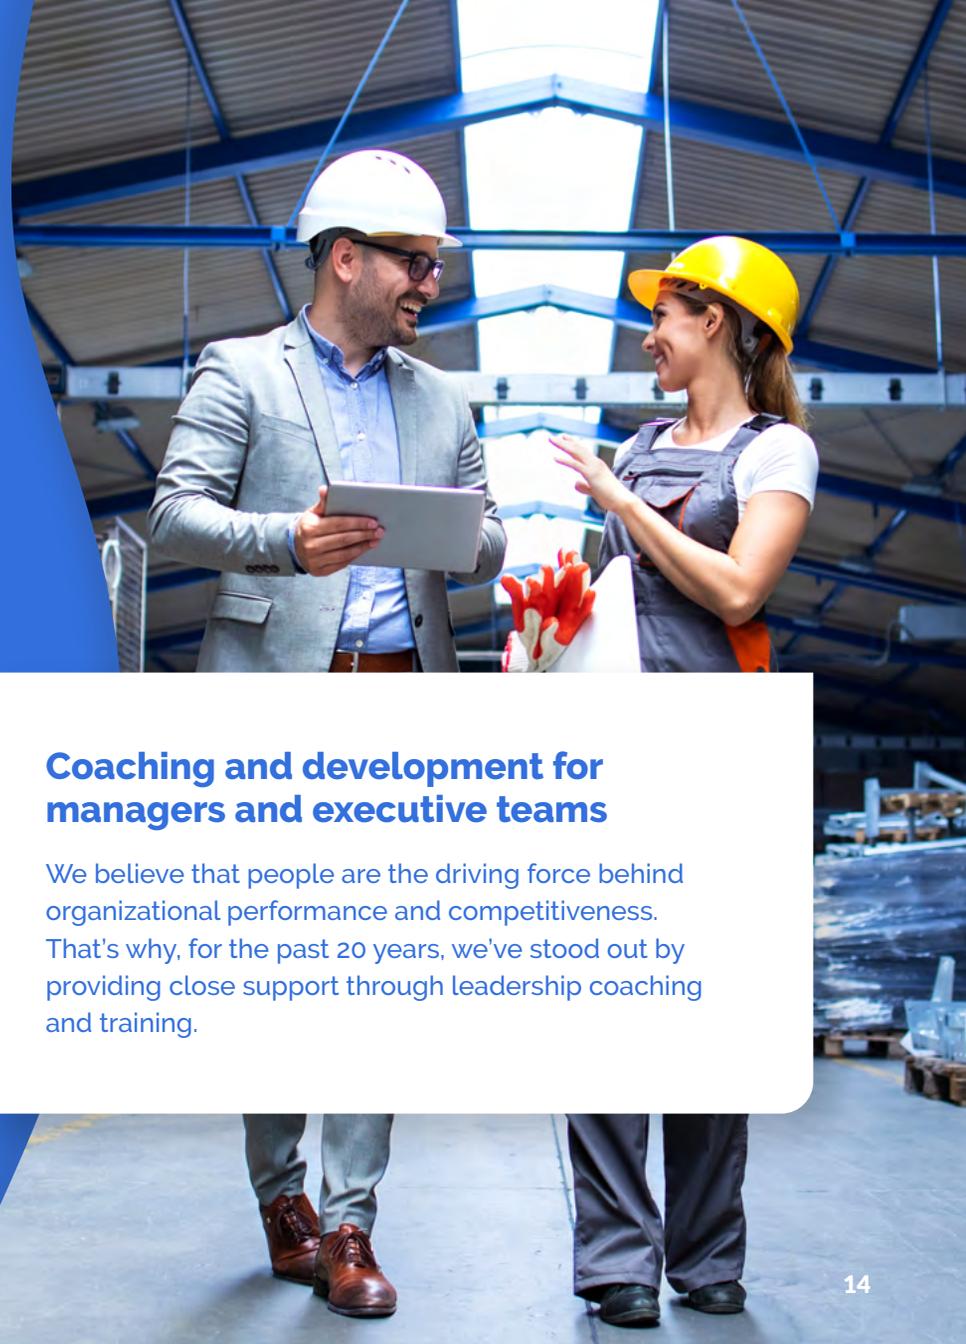

Creation of dashboards and PowerBI

Technical support including a ticket system and knowledge base

Custom iOS, .NET, and Power Apps development

## Coaching and development for managers and executive teams

We believe that people are the driving force behind organizational performance and competitiveness. That's why, for the past 20 years, we've stood out by providing close support through leadership coaching and training.
